Garden of Good Manners

"Manners mature into morals"

The students of class I learnt the concept of good manners while performing a craft activity. They wrote the polite words- Sorry, May I, Please, Excuse me and Thank you on cutouts of flowers and pasted them on a vase. This symbolised a garden of good manners.

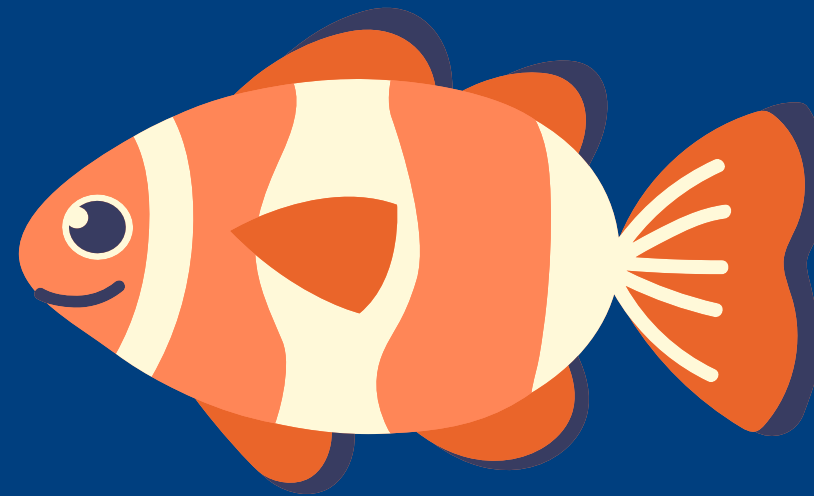

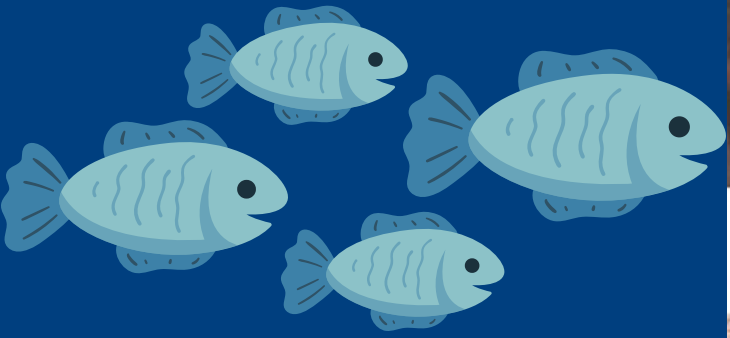

Such activities at an early stage not only helps to instil values among children but also add to the holistic development of child.

हिंदी क्रियाकलाप (लिंग बदलो) 19 सितंबर 2022

कक्षा 1 के छात्रों ने मछली का चित्र बनाया और उसे सजाते हुए लिंग की अवधारणा को सीखा।

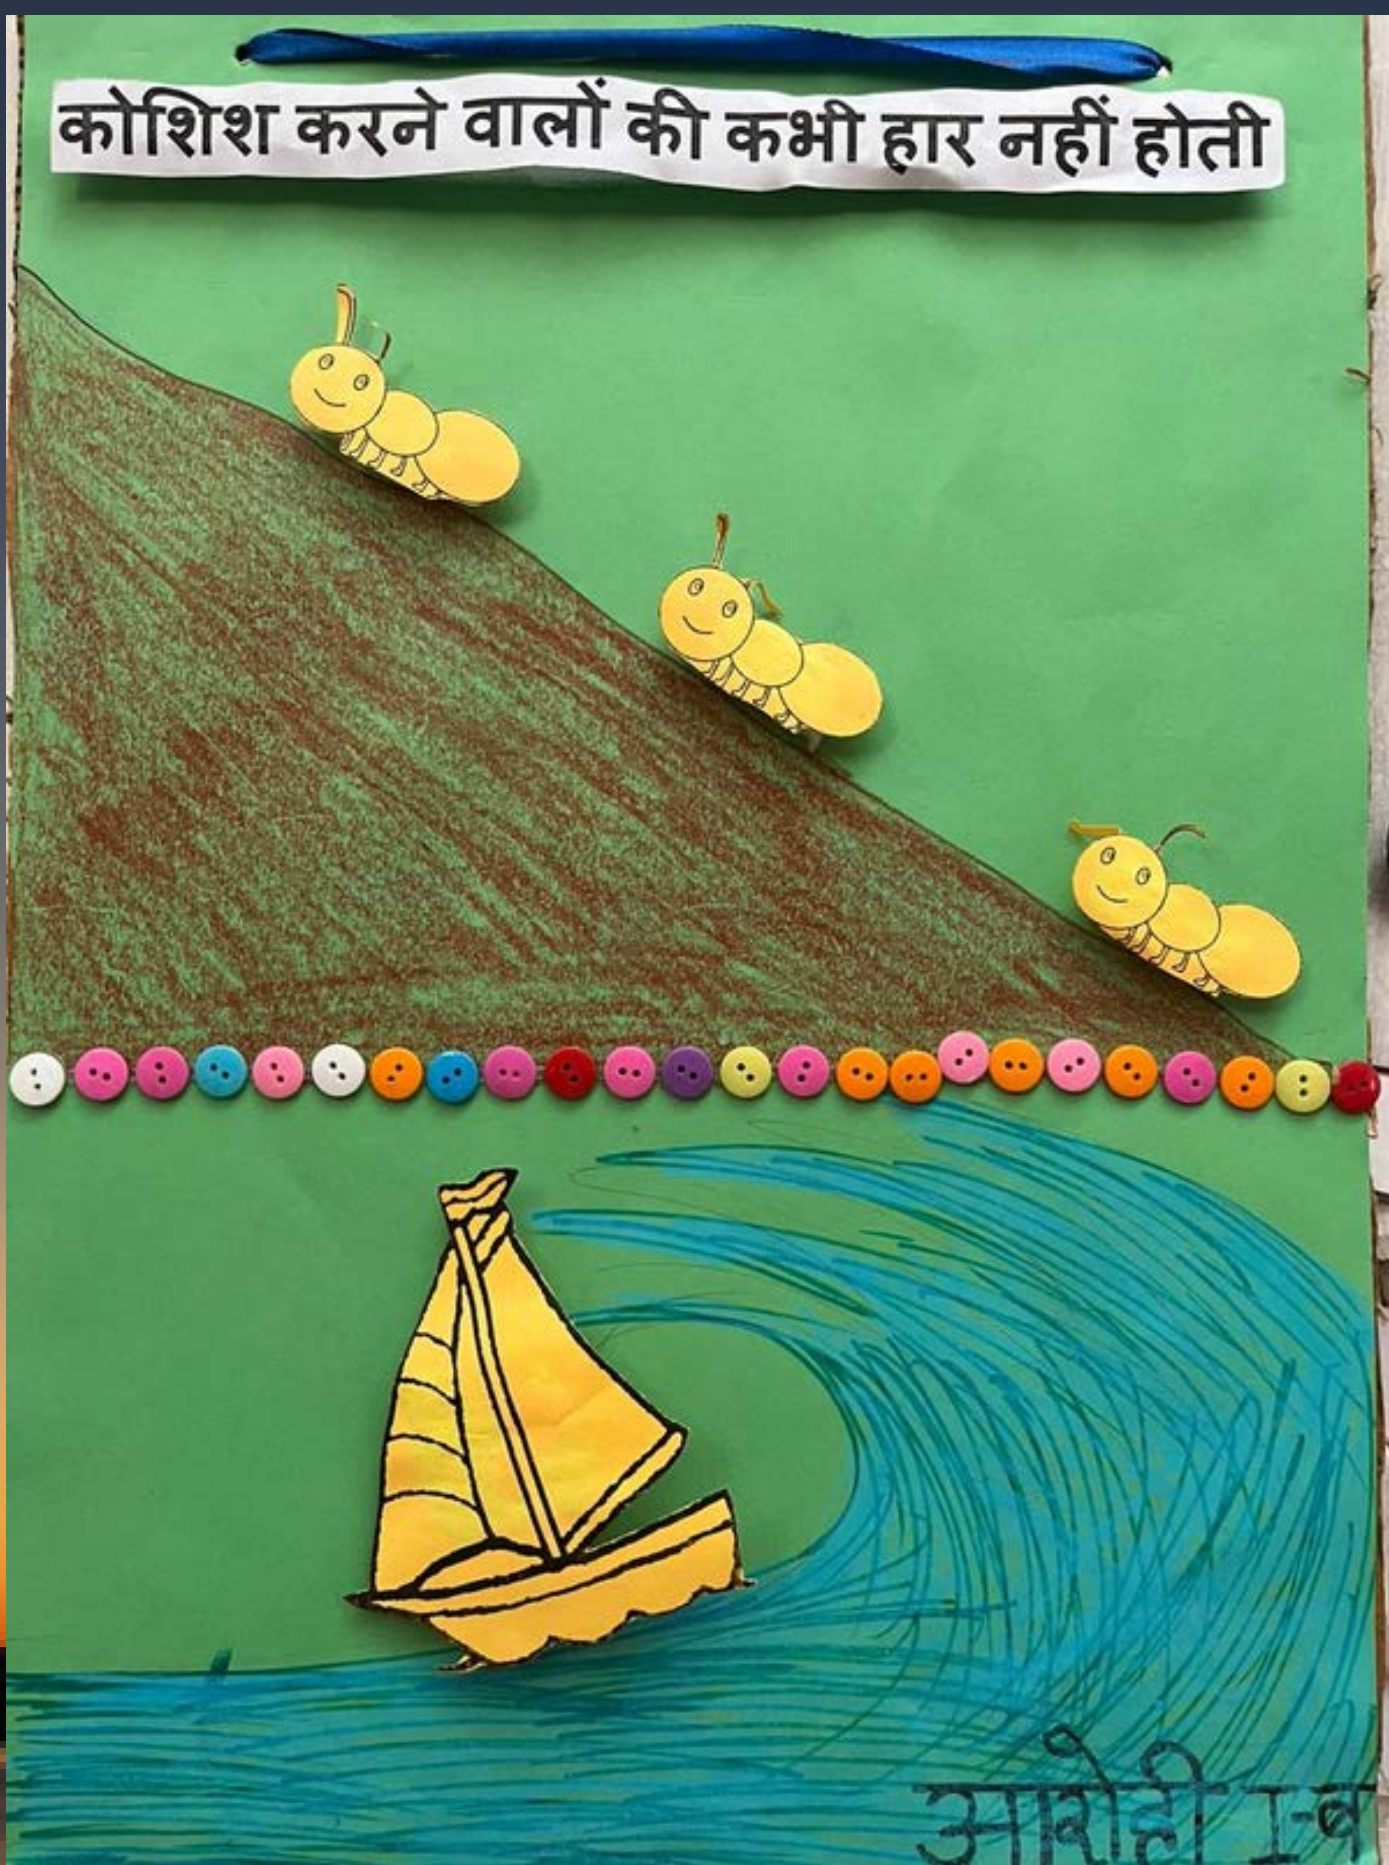

छात्रों ने दिए गए शब्दों का लिंग बदलते हुए मिलान किया और उन्हें मछली पर चिपकाया। इस प्रकार छात्रों ने अपनी रचनात्मकता को भाषा कौशल के साथ एकीकृत किया।

परिश्रम का महत्त्व

कक्षा १के छात्रों को परिश्रम का महत्त्व बताते हुए पाठ - 'बंदर और चिड़िया' पढ़ाया गया। उससे संबंधित क्रियाकलाप कराया गया। बच्चों ने घर में उपलब्ध वस्तुओं से कुछ पोस्टर बनाए और मेहनत का महत्त्व चित्रों द्वारा दर्शाया। उन्होंने बुलंद आवाज़ में नारे लगाए 'कोशिश करने वालों की कभी हार नहीं होती'। बच्चों को परिश्रम कर अपना कार्य स्वयं करने के लिए प्रेरित किया गया।

Date September 3, 2022

"THERE IS NO GREATER JOY IN LIFE THAN JOY OF CREATING SOMETHING."

Crafting enhances creativity and curiosity in kids when they themselves create something by joining various things together.

It helps in developing competence and self worth among students.

Keeping the same in mind, the tiny tots of Grade 1 created Ganesha Lamps for decoration using thermocol cups and some strips of paper. They showed great patience and concentration in preparing the same. The sense of accomplishment and pride could be easily seen in their eyes. They participated enthusiastically in the activity and enjoyed a lot.

"*One accurate measurement is worth a thousand expert opinions.*"

Measurement is important in providing links between strands of mathematics. For example, it provides a rich and meaningful context for the use of number skills and of spatial concepts. Measurement also helps to coordinate between mathematics with school subjects.

To understand the concept of Measurement better and to visualise various tools of measuring Length, Weight and Capacity, the students were helped to perform an activity in their scrap files in which they pasted pictures of various measuring tools like weighing scale, digital scale, ruler, measuring tape, etc. Students used stickers and cutouts and performed the activity with utmost creativity.

The outcome was beautiful and students enjoyed as well as grasped the concept more readily.

Designing Animal Habitat

*"*Those who protect the animals lead the way in protecting and saving humanity and earth". **

Every organism has a unique eco system within which it survives. In order to sensitize the children about protecting the animals, an activity was conducted for the students of class IV, wherein, they had to design an animal habitat.

The children depicted their creativity beautifully and designed habitats like terrestrial, desert, ocean, etc.

The activity provided an opportunity to the students to explore the environment around them and learn about diverse climate and land forms required for the survival of these animals.

Kirigami Craft Fun (SYMMETRY)

"Creativity involves breaking out of established patterns in order to look at things in a different way."

Kirigami helps to teach students about the importance of Japanese art and culture, while they are working on developing: Scissor skills, and visual skills. It also optimises the development of motor coordination and manual dexterity and helps develop better concentration. Students created versatile Kirigami designs and made vibrant patterns. They thoroughly enjoyed learning and doing this new art form.

BOOK MARK USING ICE-CREAM STICKS

*“*Reading is to mind what exercise is to body.*”*

Bookmarks and books go hand in hand and promote a pleasant reading experience. An interesting activity was conducted for the students of class IV, wherein they had to design and decorate beautiful book marks.

The students created beautiful and attractive book marks using innovative ideas. They showcased their talent and creativity by pasting pictures and writing meaningful quotes on them. It was indeed not only great learning experience but also a fun - filled activity.

WEEK

Class 1

'Mathematics gives us hope, that every problem has a solution.'

Mathematics plays a great role in our daily lives. Certain qualities that are nurtured by mathematics are the power of reasoning, creativity and problem-solving ability. To help students develop interest for the subject, multiple activities based on the concept of addition and subtraction were executed for the students of Class 1. The young learners got the chance to practice these concepts through Beads activity (abacus), POPIT and Mental maths worksheet.

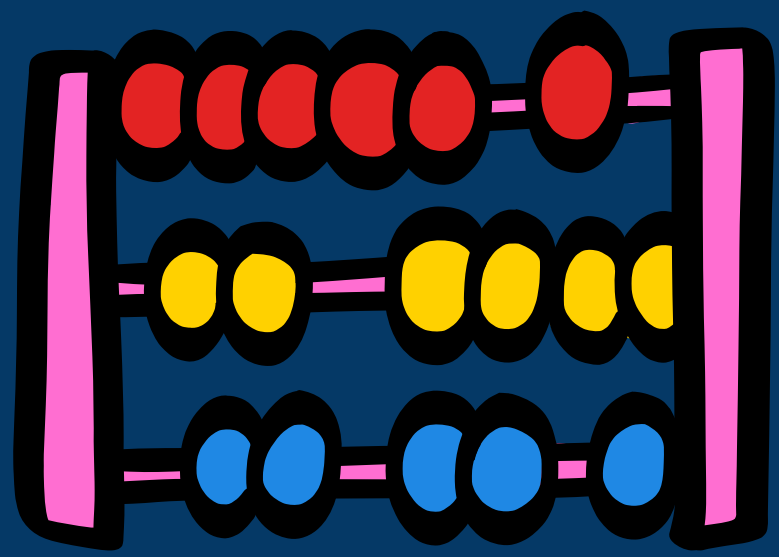

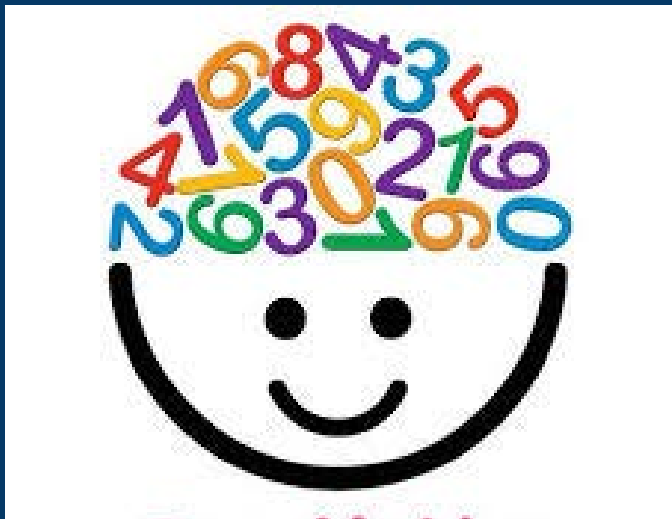

Each activity was designed to keep the children engrossed and also helped the students to retain the concepts of mathematical operations well.

Maths Game

"Mathematics is not about numbers , equations, computations or algorithms. It is about understanding"

Mathematics is more about learning by doing or understanding the concepts with the help of an activity instead of studying it with chalk and and talk method. To make Maths more playful, interesting and enjoyable, an activity was conducted for the students of class 2 ,wherein the students had to roll two dices at the same time and apply various mathematical operations like addition , subtraction and multiplication to find an answer to a set of questions.

The students participated enthusiastically and enjoyed the game. The game also generated interest among students for the subject and helped develop their psychomotor skill!

Indeed a fun- learning activity!

Maths in Everyday Life

"LIFE IS A MATH EQUATION. IN ORDER TO GAIN THE MOST, YOU HAVE TO KNOW HOW TO CONVERT THE NEGATIVES INTO POSITIVES".

Maths is an integral part of life and we apply various applications of mathematics in our day to day life. It will be fair to say that without numbers our life is incomplete.

So to induce the importance of Maths in our lives, an activity based on numbers was conducted wherein the students wrote the numbers in a mind map like their weight, height, house no., no of siblings etc.

The activity helped to enhance their skill to calculate digits faster using different mathematical operations they have learnt.

The outcome of the activity was excellent as students presented the data in a beautiful and innovative manner. They accomplished the task with enthusiasm and zeal.

World Heart Day

**Class 1
World Heart Day**

29 September 2022

"A healthy heart is the main source of your strength".

World Heart Day is observed and celebrated annually on September 29, with the aim to increase awareness about cardiovascular diseases and how to keep a check on them.

The little kids of NKBPS Rohini, also stepped forward to celebrate the day wholeheartedly. They made beautiful hand bands with hearts on them giving away the message of keeping your heart healthy and strong. They discussed the ways and means by which one can have a healthy heart. The activity was accompanied by an aerobics session making the students aware of the importance of exercises in ones life. They enjoyed the session to the fullest giving a message that life is more beautiful and more fun when you have a heart that beats right 😊

GRANDPARENTS' DAY

Grandparents' Day Celebration

Class - V

Date - 9th September 2022

"A grandparent is a little bit parent, a little bit teacher and a little bit best friend."

Grandparents provide the children with the essentials they need the most. They give unconditional love, kindness, patience to their grandchildren . They help to create childhood memories and pass on some of the life's most valuable lessons to the coming generations .

To celebrate this beautiful relationship ,that has love and respect in abundance, the students of Grade V of NKBPS Rohini , shared some glimpses of precious moments when they had spent quality time with their grandparents.

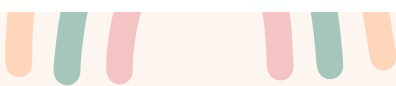

It is a true blessing to have our grandparents with us and we can cherish their fond memories for ever and ever !

EMBRACING BEAUTIFUL MINDS

“THE MIND OF A CHILD IS FRAGILE. THEIR EMOTIONS TOUCH THEIR FUTURE, AND YOUR BEHAVIOUR SHAPES THEIR DESTINY.”

While every child needs love, encouragement and support, a child with special needs these positive reinforcements even more. These can enhance their abilities and they emerge stronger with a determination to keep moving ahead in life, even when the times get tough and the path rougher.

“THE PURPOSE OF HUMAN LIFE IS TO SERVE AND TO SHOW COMPASSION AND THE WILL TO HELP OTHERS”

This is our vital duty to allow others to find comfort, show affection and serve every individual with or without special needs. Moreover, a positive approach within the community inherits a productive and drastic development, which will therefore be engraved for further generations

“ HOW CLASSROOM HAVE CHANGED OVER TIME”

Classrooms of today are not confined to walls and blackboard. In this sense, a modern classroom is not restricted in any physical mode or dimension. It is rather a dynamic learning space that is designed to provide a stimulating environment for enquiry, observation, experiment, exploration, self- reflection and discovery. Technology is used as an important tool and conduit for dissemination of information and exchange of ideas .The knowledge shared involves the active and engaged participation of all the stakeholde .So, learning is a collaborative effort that is the result of interaction with self, the people around, the environment and various components. The talents and skills acquired through this process are essential for developing the most successful endeavors.

Reenu Nagpal

"Adaptability to change is itself a hallmark of successful education."

The past few years have witnessed a revolutionary change in the education system. Classrooms are the epicenter for knowledge generation. The idea behind this is to develop important personality and career building skills. Over the years, it has refined with the combined efforts of teachers and students. From one person speaking to all pupil discussing, is the transformation.

The switch in classroom is not only limited to the shift from rugs to benches, but also from chalk and duster to smart board, from books to interactive modules, from rote memorization to learning by doing and beyond. Today's students have grown up with technology and are able to use it more successfully than many traditional classroom resources. Schools have become a place for the holistic development of every child. The curriculums are now drafted past the academic syllabus. It now includes, happiness curriculum, deshbhakti curriculum and mindfulness.

It would be suffice to say, that the classrooms are upgrading every second to include the best of dynamic environmental changes around us.
