Editorial

Welcome to the first edition of the school newsletter for the months of January to March 2023. January marks the beginning of a new year, a fresh start to leave behind old moods and embrace new attitudes. It is the perfect time to reflect on how we want to live our lives and make positive changes. As we open the book of the new year, its pages are blank, waiting for us to write our own story. This book is called opportunity, and the first chapter is New Year's Day.

As the quote goes, "New year - a new chapter, a new verse, or just the same old story? Ultimately we write it. The choice is ours." Let us all take this as a reminder that the choices we make today will shape our future. We should strive to make the most out of each day, pursuing our passions and goals with vigor and determination.

FOUNDER'S DAY

-JAN- MARCH EDITION 2023

On 16th January 2023, the school celebrated Founder's day by organising a Health Camp. The day marks the death anniversary of the visionary who laid the foundation of this institution, the school chairman Late Sh. N.K. Bagrodiaji. He was the most extraordinarily generous philanthropist and had a dream for providing quality education and good educational institution so that the children from the cross section of the society could receive education and become the noble citizens of our country. The day commenced with the blessings of the Lord Almighty followed by the beautiful prayer singing performance by our little kings and queens , spreading positivity in the air like confetti. The health camp reinforced the value of 'giving back to the society' and was an opportunity for the doctors to contribute and experience the joy of giving. Also, doctors were called for doing the regular health check up of students. To conclude, this day aims to inculcate strong values of humanity and sympathy.

Health Is a **BOON** **CARE** for it...

A health camp was organized in our school on 16 January 2023 for all the students and staff to spread awareness about health check-up and maintaining a healthy life .The Doctors not only examined all the students and other faculty members but also gave them valuable insights on how to maintain a fit body with respect to today's day and age. On completion of the medical check-up , each student was given a patient card, a report summary of the diagnosed problem and recommended for further treatment if required.I thank all the doctors for their time and consideration for our school.

Nevertheless, we've been bound now and forever
Yes. We know it in our hearts.*
