JANUARY - MARCH

I dreamt, I stood in a studio,
And watched the sculptors there;
The clay they used was a child's mind,
And they fashioned it with care.

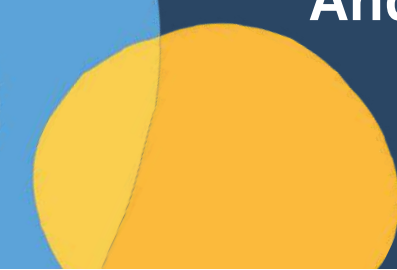

One, was a teacher, the tools used,
Were books and music and art;
One, a parent with guiding hands,
A gentle and loving heart.

Day after day, the teacher toiled,
With a touch both deft and skilled;
The parent laboured side-by-side,
And all the values filled.

And when at last their task was done,
They looked at what they'd wrought;
The beautiful shape of the precious child,
Could neither be sold nor bought.

And each agreed to it would have failed,
If one had worked alone;
For behind the parent stood the school,
And behind the teacher, the home.

WE HAVE FUN
WE ARE HELPFUL
WE STAY POSITIVE
WE ARE RESPECTFUL
WE DO GREAT THINGS
WE LOVE WHAT WE DO
WE WORK HARD AND SMART
WE COMMUNICATE AND LISTEN
WE STRIVE FOR EXCELLENCE
WE ARE A TEAM

Congratulations

We are proud to announce the extraordinary achievement of two teachers from our department namely, Ms. Jyoti Kapoor and Ms. Reenu Nagpal, whose projects submitted for the VIDYA AMRIT MAHOTSAV under AKAM were shortlisted among the Top 15 by SCERT on the DIKSHA App.

This was possible due to the sincere and sustained hard work, dedication and ingenuity of the students as well as the teachers.

The projects were undertaken in Mathematics and Environmental Studies and showcased among other things, innovative learning-teaching methodologies that were more often than not led by the students themselves. The motivation and guidance for these endeavours was provided by Ms. Binny Gupta, Incharge of the Department who, actively and tirelessly supported the efforts.

The projects garnered praise and accolades from the parents and guardians. The students identified themselves as a part of the team and gained confidence in their abilities through active and involved participation.

Training programmes provide a platform to acquire innovative skills to make the teaching learning process interesting and engage us in deep discussion. It was a matter of great delight for NKBPS ROHINI to host a one-day training session on 21.01.2023 on 'Capacity Building Programme on Learning Outcomes and Pedagogies' organised by CBSE and conducted by Ms. Ira Vishwakarma and Mr. Naveen Gupta. The main objective of the training session was to equip the teachers to understand the need for learning outcomes, analyse and justify the shift related with learning outcomes, identify the advantage of having learning outcomes for children with special needs. The workshop was interesting and enriching and included brain storming and interactive sessions. 50 teachers of the school participated with zeal and enthusiasm and acquired innovative techniques that enhanced their knowledge.

Workshop on Safer Internet Day

(Primary Department)

Date : 07.02.2023

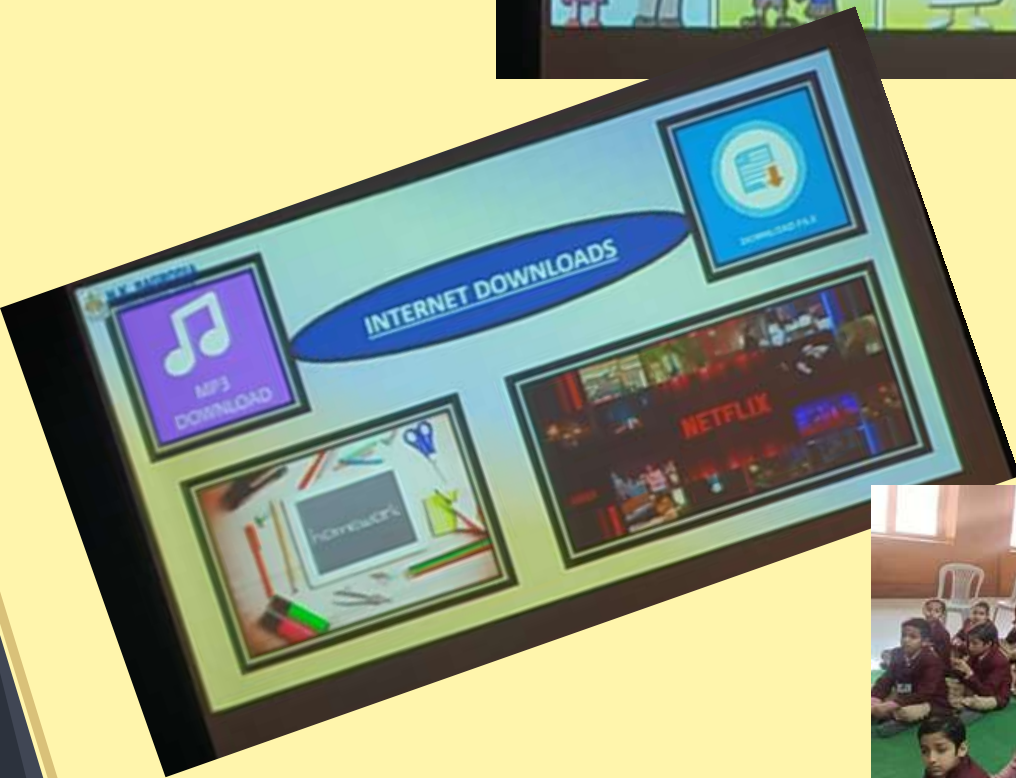

“ Security is always excessive until it is not enough. “

In order to acquaint children with online safety and dangers related to Internet a workshop was conducted for students of Class IV on the occasion of ‘Safer Internet Day’ which is celebrated every year in the month of February since 2004 to educate the young minds about online safety all over the world. The workshop was conducted in the Multi-Purpose Hall by Ms. Shriya Mishra with the help of an attractive and age-appropriate PowerPoint Presentation. The workshop highlighted the most common dangers which teenagers face while working on the Internet and the various ways to tackle and resolve the issues related to online safety. At the end of the workshop an Interactive Quiz was conducted for the students in which they participated enthusiastically. Students enjoyed the workshop and listened with mindfulness about dangers as well as the solution given by the presenter. The workshop was concluded by our dynamic Principal Sir who enlightened us with his words of wisdom.

'Happiness is when what you think, what you say and what you do are in harmony.'

- Mahatma Gandhi

According to the World Happiness Report 2017, India is among the world's least happy nations and ranked 122 among 155 countries in the global ranking, and further slipped to 133 among 155 countries in the World Happiness Report of 2018. Therefore, happiness has now become a part of the global policy agenda. To nurture the future happy citizens of India, students of Class 1 made rainbows using stripes of different colours to indicate the eternal sense of hope and happiness. They had a discussion on the things or activities that make them happy and excited. They wrote those activities on their rainbow of hope and happiness. The kids took part in the discussion enthusiastically and felt the rush of happiness inside them.

"Laughter is the best medicine."

Laughter is a powerful stress-relieving medicine. When it comes to relieving stress, more giggles and guffaws are just what the doctor orders. It's fun to share a good laugh, but it can actually improve one's health. For the same purpose, a laughter yoga session was taken up for the students of Class III, in which a video by a famous Laughter Guru was shown and the students followed the laughs. Further, a few hilarious videos were also shown to children to have a belly laugh and to create a jolly environment.

Primary Department**

‘Patriotism is not short, frenzied outbursts of emotion, but the tranquil and steady dedication of a lifetime.’

-Adlai Stevenson

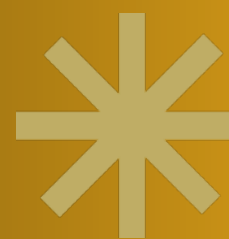

To celebrate 75 years of progression and development in India, the students of Primary Department decorated their classrooms with great joy. The young patriots immersed themselves in preparing decorative items on the ‘Tricolour’ theme. The decked-up classrooms were a treat for the eyes. The entire department and its inmates were beaming with enthusiasm. The activity certainly added impetus to the observance of ‘Azadi Ka Amrit Mahotsav’.

"If the first aid goes right, everything goes right"

First aid is a life-saving technique using which we can save lives with minimal equipment. It is a form of emergency care provided to an injured person on an immediate basis.

Understanding that prevention is better than cure, students of Class I assembled a first aid kit. They were told about the importance of first aid and about the steps of using various items such as bandaid, cotton, gauge tape etc.

Later, students shared their experiences when they got hurt and were given first aid. In all, students understood that accidents happen without notice and we should always keep ourselves ready for such emergencies.

"Dining etiquettes and general manners are like rules in a game."

Whether you're eating at home, dining out, or having dinner with friends, good table manners for kids are an important part of every meal.

When we teach our children good mealtime etiquette, we are giving them important tools for social interaction that will serve them for the rest of their lives. Keeping the above thought in mind, students of Class III were shown videos on table manners followed by a discussion on the same.

Students appreciated the importance of following the table manners while enjoying their meal. When anyone shows good table manners, you show respect for the people with whom you are eating. Overall it was a knowledgeable and informative session.

Class III

23.01.23

Proficiency with fractions is an important foundation for learning advanced mathematics.

Fractions are a student's first introduction to abstraction in mathematics and as such provide the best introduction to algebra in the elementary school years. Fractions are important because they tell you what portion of a whole you need, have or want.

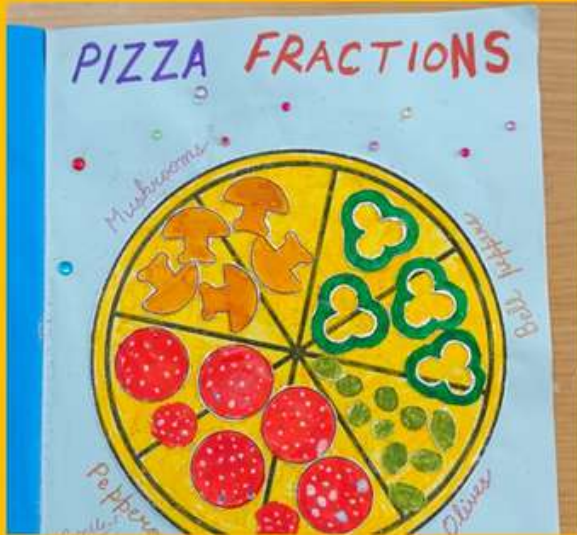

To support students' understanding of fractions an interesting and engaging activity was conducted in the class. Students designed a pizza in their scrap files based on the provided clues. They were asked to add the toppings to the pizza according to the given fraction. The activity was thoroughly enjoyed by the students. It helped them to understand the concept in a real-life situation.

Class 3
